**Mitsubishi Electric Visual Solutions America Announces
Display Wall Bundles**

Economical, Easy-to-Install Solution for Small Environments

IRVINE, Calif., June 15, 2011 — Mitsubishi Electric Visual Solutions America, Inc., today announced a set of complete display wall solutions designed for environments with limited space and budget. By leveraging its Seventy Series built-in processing, Mitsubishi's complete, cost-effective bundle includes the displays, mounts/pedestals, desktop computer, and connections for two high-definition video sources, and control software.

These pre-bundled solutions can be ordered in the following configurations:

- Two high by two wide, 55-inch Super Narrow Bezel LCD Wall (VS-L55HM70U-BD4)
- Three high by two wide, 55-inch Super Narrow Bezel LCD Wall (VS-L55HM70UB-D6)
- Two high by two wide, 50-inch Front Access Single Lamp DLP Wall (VS-50XL70UB-D4)
- Three high by two wide, 50-inch Front Access Single Lamp DLP Wall (VS-50-XL70U-BD6)

The bundled video wall solutions are managed with Mitsubishi's D-Wall software, which provides window and layout control of the video windows and desktop computer applications. For customers seeking wireless control of the display wall, an IOS version of the D-Wall software is available for the iPad®.

“These bundled packages allow customers to take advantage of true control room-oriented displays, who may not have had the budget for a video wall,” said Matt Krstulja, director of sales, Datawall, Mitsubishi Electric Visual Solutions America, Inc. “We believe these bundled solutions are ideal for emergency operation centers, datacenters, traffic management centers and electric cooperatives.”

Because all systems are pre-tested and configured, Mitsubishi Datawall system integrators are assured that they are providing great value and reliability to their customers.

Availability, Warranty

Mitsubishi Electric Visual Solutions America is selling its new bundles through authorized systems integrators. Each cube comes with Mitsubishi's two-year limited warranty on parts and labor, plus a one-year limited warranty on the lamp.
